WITH DESIGNWARE GAMES, YOU'RE ALWAYS THE WINNER.

Every DesignWare product balances education and entertainment.

And you'll play DesignWare games again and again—because they involve the players in creating the fun. Whether it's inventing characters, composing dances, or creating puzzles, DesignWare games provide unique learning environments. Products will be available for preschoolers, adults, and all ages in between.

DesignWare, which has been developing quality educational programs for schools, now brings the same educational quality to the home.
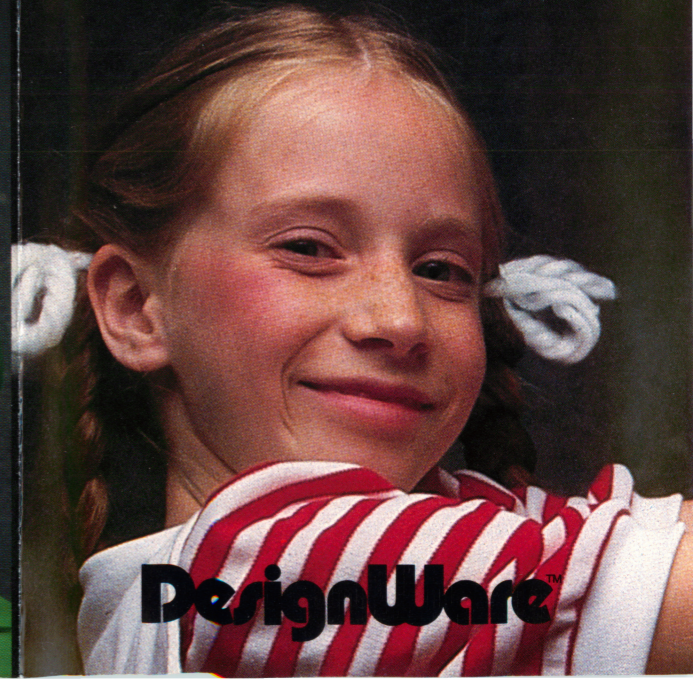

We've built upon our experience and combined in every DesignWare game sound educational content and the fun and excitement that demands replay. An activities booklet with every game provides guidelines on program uses, and suggests additional learning activities.

When it comes to developing word skills, math, and science concepts, DesignWare makes learning come alive.

DesignWare™

LEARNING COMES ALIVE

COMPUTER SOFTWARE THAT BRINGS LEARNING HOME.

DesignWare™

SPELLICOPTER™

## A PERILOUS JOURNEY TO DISCOVER SECRET WORDS.

- An action spelling game with 400 words in 40 lists. Levels of play for the entire family—from first grade to adult.
- A context clue with each word. A sound approach to spelling practice.
- Gain points for spelling words correctly. Lose points for misspelling. Motivation to learn to spell.
- Create your own word lists and clues. Perfect for practicing assigned spelling lessons, or making quiz games from literature, history or other topics.
- Lively sound effects, animation, and limited fuel supply for each mission. Adds fun and excitement to the learning process.

CRYPTO CUBE™
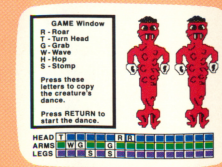

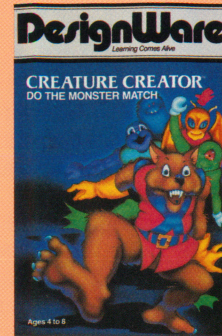

A 3-DIMENSIONAL SEARCH FOR HIDDEN WORDS.

- A family word game with 50 four-sided puzzles. Topics address a wide range of interests.
- Vocabulary levels for ages 8 to adult. Challenging for the entire family.
- Create your own puzzles: built-in puzzle generator uses word lists you create. Perfect for spelling and vocabulary homework.
- Lively sound effects and animation turn an intellectual challenge into even more fun.
- One and two-player versions for individual and group play.

CREATURE CREATOR™

BUILD YOUR OWN CREATURE— AND MAKE IT DANCE.

- Create your own creatures from a selection of heads, bodies, arms and legs. Gives young children confidence in controlling the computer.
- Design dance sequences for your creatures to perform. Learn the fundamental concept of computer programming.
- Attempt to match the dance steps of the computer's creature in an entertaining, pattern matching challenge.
- Lively graphics, sound effects and animation. Entertainment and challenge for ages 4 to 8.
- Individual and group entertainment in any setting.

GET THE COMPUTER NEWSLETTER THAT'S WRITTEN JUST FOR YOU!

HOW TO GET YOUR FREE SUBSCRIPTION TO KIDS' COMPUTER NEWS.

Now there's a computer publication written just for kids: Kids' Computer News. And you get a year's subscription free—four big issues—just for sending us the warranty card that's enclosed in every DesignWare software program.

You'll read about exciting new DesignWare programs, with reviews by parents, teachers, and even kids! Each issue contains fun activities for kids of all ages.

And you'll find valuable coupons for discounts on magazine subscriptions of interest to the computing family—and on DesignWare products themselves.

Start reading the newsletter that's written for kids with computers. Send in your DesignWare warranty card today!
